

HARVEST VIEW

TEMPRANILLO 2017 CALIFORNIA

Harvest View wines represent the art of wine blending. We combine wines from different areas, different varietals, and skills & techniques from different winemakers. We strive for gentle blends, light touch to polish each wine. In this creative way, Harvest View creates unique gems.

This Tempranillo is the collaborative result of 4 winemakers, 2 vineyards, 1 wine lovers idea, and time.

Tempranillo is normally grown in hot climates like Spain. We sourced from 2 vineyards in 2017.

50% of this wine is Tempranillo from Yolo County, Winemaker Nicole Salengo produced her Tempranillo in a lighter style, avoiding unbalanced high alcohol wines prevalent in hotter climates. Her wines show finesse and balance

50% came from a vineyard and winemaker in El Dorado County. Their Tempranillo was made in a nice fruity style. aged in once used oak and neutral oak. Wine is unfinned and unfiltered.

The final wine is 100% Tempranillo. Blended together, the two wines gained complexity and depth.

We blended & bottled at Mietz Cellars. Alexa Mietz has become an important part of the Harvest View wine program. Blending the same varietal with "itself" is a lot of fun, as one can quickly see the new wine come together. In the winery, we played with different percentages of each Tempranillo, and agreed 50/50 was perfect! Slight use of additional oak helped deepen the cocoa finish..

Production: 200 cases
Cooperage: 100% neutral barrels
Release: Fall 2020
Retail Price: \$45
Cooperage: Once used French oak for 2 years. Storage in totes prior to blending.
50/50 Yolo/ El Dorado Tempranillo
